Notes:

- (i) Postcodes listed are those where final coverage may exceed 50% of premises
- (ii) Once more detailed planning and surveying is undertaken, unforeseen circumstances can mean that upgrade plans for a given area may change. In some cases this can mean an area becomes economically unviable to complete.
- (iii) Postcodes do not map straightforwardly onto network deployments. Therefore once an area has been enabled, it is not necessarily true that all the premises in the postcode will experience an uplift in speeds, or that speed uplifts will be limited to only the postcode areas specified.
